

YOUR SOLUTION PARTNER FROM BEGINING TO END..

LYNKSO

MISSION

VISION Lynkso Refrigeration vision is to provide creative and innovative services that surpass expectations.

The Lynkso Refrigeration aims at being an industrial company that acts with the mission of: • Operating with a focus on achieving ultimate customer satisfaction, • Being well-informed about the industry and the market, • Understanding what its stakeholders expect, defining further expectations and seeking to meet them all with maximum satisfaction, • Employing creative and innovative workforce, and making good use of technologies, • Being reliable and trustworthy, and • Providing productive and profitable services across the entire refrigeration value chain.

OUR MISSION - OUR VISION

CORPORATE The Lynkso Refrigeration corporate strategy is built on three pillars; "Be sizeable, be close, be creative". "Be sizeable" – Lynkso pursues growth through systematic, efficient and profitable operations in the international markets and local market in all branches where it provides services, and aims to build on its human resource as an outcome of such growth. "Be close" – Lynkso seeks to understand what all of its stakeholders, and customers in particular, expect, and aims at quickly and efficiently surpassing these expectations. "Be creative" – Lynkso believes that it can only stand out through creativity, and for that purpose forges competitive advantage in the market with constant innovation and an inclusive approach to product development, customer services and business concepts. Lynkso also develops measures to achieve leaner and faster processes with lower costs through teamwork

Electronic Thermostat

Electronic thermostat supports energy saving by controlling system fans between required temperature levels. Electronic thermostat may have many different options depending on customer requirements.

Thermometer

Shows inner temperature of the cooler and may be either digital or analogue according to market requirements.

LED illumination

Different LED variations & configurations may be applied on cooler body and door glass in accordance to promotion.

Different & Customized Canopy Applications

Customized canopy designs can be developed according to customer preferences or designs.

Illuminated LED logo on glass door

Any design or brand can be represented on the glass door by a glowing LED illuminated technology that does not hinder product visibility.

Door Lock

Applicable to all models.

Door Handle

In addition to our standard door handle options, we can develop customized designs in accordance to your requirements.

Light Switch

It enables either internal or canopy illumination to be controlled manually.

Feet Options

Adjustable feet to balance the cooler on inclined surfaces or wheels (rollers & castors) to move the cooler can be selected.

Street Cooler Feature

This feature enables cooler to become suitable for out-door use.

Self Closing and Reversible Door Options

Reversible door option allows for change of door opening direction from left to right. Self closing option ensures door to close by itself.

Colorful Outer / Inner Body

You may choose different colour for the coolers' inner and outer body. Outer and inner body colors can be chosen through wide scale of international colour charts.

Transparent LCD Screen Application on Glass Door

Transparent LCD panel placed on the glass door has the ability to project interacting videos without hindering the view of the product behind.

Different Cladding Options

Different types of cladding options can be proposed or developed in accordance to customer requirements and expectations.

Lid Lock

Mechanical lock with key can be applied to all models to secure products inside.

Thermometer

Shows inner temperature of the cooler and may be either digital or analogue according to market requirements.

Additional Basket

In addition to default baskets provided with the cooler, extra baskets may be ordered if needed.

Branding Application on Outer Body

Branded stickers can be applied at all surfaces.

Colorful Outer Body and Frame

You may choose different colours for your coolers' inner and outer body. Outer and inner body colors can be chosen through wide scale of international colour charts.

Stainless Steel Outer Body

Premium and elegant stainless steel look for the coolers, can be provided for food service or other use.

Feet Options

Adjustable feet to balance the cooler on inclined surfaces or wheels (rollers & castors) to move the cooler can be selected.

Illuminated Canopy

Illuminated and branded canopy can be implemented if required.

Parasol Holder

Depending on the purpose of use, price list holder or parasol holder can be applied on the cooler body.

PACKING AND LOADING PROFILE
